

12th February 2019

Dear Parent,

As per the directions from the National Health Mission, Dept. of Health and Family Welfare Services, Govt. of Karnataka and the District Health Administration, we are expected to observe National Deworming Day (NDD) at our School, by administering 'Albendazole' to all students from LKG to Class XII, in the presence of Teachers. We are planning to organize this programme on 14th February 2019. This communication is intended to inform you the same. You may send a note in the child's handbook, **if you do not want** us to administer the tablet to your ward.

Regards,

Mathew K G
(Principal)
