

20th April, 2021

Dear Parents,

Excel Public School is a member school of The New York Academy of Sciences, New York. We have been intimated that the academy has started accepting applications for the next class **of The Junior Academy** and the **1000 Girls, 1000 Futures** program. They are looking for the world's best and brightest high school students passionate about changing the world through STEM.

Any **13-17-year-old** with a passion for STEM and proficiency in English can learn more about these **FREE** programs. Interested students should use the referral code **#memberschool (enter '#memberschool' for the referral code)** in their application as they will be given special consideration in the review process. For any queries, you can reach out to [globalstemalliance@nyas.org](mailto:globalstemalliance@nyas.org) to get support while completing the application.

**More about NYAS programs:**

[1000 Girls, 1000 Futures](#) connects STEM-focused high school girls to dynamic, motivated female mentors on our platform, Launchpad. Participants gain access to innovative programming focused on developing essential 21st century skills and become part of a strong network of female STEM leaders from around the world!

[The Junior Academy](#) introduces exceptional students to an online community of their peers where they gain access to best-in-class STEM resources and work together to solve real-world problems. STEM professionals mentor student teams during 60-day innovation challenges, with multiple challenges a year for participants to choose from.

**Students can directly log in to**
