

AIM Mission Director, Dr. Chintan Vaishnav @ EPS

Dr. Chintan Vaishnav, Mission Director, Atal Innovation Mission and his team visited the Atal Tinkering Lab at Excel Public School and interacted with students and their mentors from Excelsoft Technologies along with the ATL in-charge Teachers.

Dr. Chintan appreciated the uniqueness of the academic work done by Excel Public School at all levels like the content, pedagogy, and process. He opined that regularising the idea of making innovation a part of the regular curriculum through ATL classes at Excel Public School, would not only empower the students with the 21st-century skills of creativity, innovation, critical thinking, design thinking, and social and cross-cultural collaboration but also create workspaces where young minds can learn innovation skills, sculpt ideas through hands-on activities, work and learn in a flexible environment. Dr. Chintan was happy to express that EPS is making a mark globally by taking pedagogy to different levels where learning-by-doing is extended to all subjects and augmenting the same with ATL.

Students presented projects that they had worked on and enthusiastically answered questions. Dr. Chintan listened to the students very patiently and offered his insights.
