

Start-Up Starlets

Ashmitha Rao, Deeksha G, and Gahana H Prasad, students of grade 9, emerged as standout participants in the 'Shepreneur Program: AI and Entrepreneurship for Future Girl Innovators,' a collaborative initiative by Dell Technology and the Learning Link Foundation in Bangalore. The presentation of the trio highlighted a unique prototype they developed, named 'The Nutrition Vending Machine,' as a significant contribution to the ATL Marathon 2023. The girls emphasised the prototype's distinct features, functionality, and practicality. Among the 30 competing teams nationwide, our girls' power ranked among the Top 10 Achievers for their noteworthy innovation.
