SKILL DEVELOPMENT PROGRAMME

Schools today need to provide a holistic education that flawlessly stabilizes academic and extracurricular activities. Skill Development Program provides students with an opportunity to develop new-age skills of critical thinking, creative thinking, and problem-solving. By introducing Skill Development programs at the school level, students will have the skills and knowledge required in the 21st century.

We are introducing the Skill Development Programme to our sixth to eighth-graders. Five preferences are given to the students to help them choose their clubs. There will only be 20 students per club. The final decision will be made at the school's discretion and according to the preferences.

Please find the details of the programme from the below link.
