

Generation of Innovators!

In the School Innovation Contest 2023-24, our school team, consisting of Eshaanvi Nandeesh Preetham and C B Swarna from Class XII, as well as Divya Satish from Class XI, has achieved remarkable success under the guidance of their mentor Mr. Gopinath Subramaniam.

Their project, titled "Any Time Education" and identified with Idea ID 3065, focuses on the theme of Education. This project was among the elite 19 innovations selected for funding out of an impressive 6,857 entries, following a stringent multi-round evaluation by a panel of experts.

In addition to receiving funding to further develop their innovative concept into a product, technology, or startup, an esteemed invitation has been extended to the team to attend the celebration of NEP Day, scheduled for July 27, 2024, in New Delhi.

Excel Public School is very proud to have received this award in recognition of the hard work and originality of the students and the mentor.
