

Circular Regarding Permission to bring Mobile Phones and other such Electronic Gadgets to School Premises and their Use

Date: 19-11-2024

Dear Parents,

This is to inform you that students are strictly prohibited from bringing mobile phones or any other such electronic gadgets to School. While a provision was previously in place allowing students of Classes 9 to 12 to deposit their mobile phones at the School Office, we regret to inform that there have been several instances where this provision was found to have been misused by a few students. As a result, this facility has been discontinued, and the policy has been revised accordingly.

In exceptional cases where students must carry mobile phone to school for genuine reasons, parents of such students are required to meet the Principal in person and submit a written request. This request must be accompanied by signing an undertaking, affirming the parent's responsibility for ensuring their ward's compliance with the School's policies.

If any student is found in possession of any such devices without prior authorization, the item will be confiscated, and the student will face strict disciplinary action, which may even include dismissal from the School.

For School-related activities such as projects under the ATL/Innovation Centre or similar programs, concerned Teacher-in-Charge will provide prior intimation specifying the duration and purpose for which such devices may be brought to the School. Any misuse of such devices, including their use for purposes beyond the approved activity, will result in confiscation and disciplinary measures, which may even include dismissal from the School.

We seek your cooperation in ensuring a safe, disciplined and distraction-free learning environment for all students of our school.

Warm regards,

Mathew K G
(Principal)
