## **Gold Recognition for Excellence in The Economic Times for Excellence in AI, Robotics and Responsible Emerging Technologies**

Excel Public School has been awarded the Gold Position at the Education Excellence Awards, hosted by The Economic Times, in the category of Excellence in AI, Robotics and Responsible Emerging Technologies.

This prestigious recognition acknowledges the school's efforts to integrate emerging technologies into the learning ecosystem through innovative and future-focused educational practices. By encouraging computational thinking, problem-solving, design thinking, and the responsible use of technology, the school continues to create meaningful opportunities for students to engage with the evolving world of science, innovation and discovery.
